

IN THE SPECIFICATION:

Please substitute the following paragraph for the paragraph starting at page 1, line 21 and ending at line 24.

a<sup>1</sup> Conventional coordinate input devices of display ~~device~~ devices are therefore associated with a problem that not all the display devices can input coordinate data in ~~an~~ a multi-display environment.

Please substitute the following paragraph for the paragraph starting at page 2, line 17 and ending at page 3, line 4.

a<sup>2</sup> According to one aspect of the invention, there is provided a display system for displaying an image to be displayed by an image processing device, divisionally on a plurality of display devices, the display system comprising: the image processing device; a first display device for displaying an image on a first display unit; a second display device for displaying an image on a second display unit; a first coordinate value input device provided in correspondence with the first display unit; and a second coordinate value input device provided in correspondence with the second display unit, wherein the first display device has an input unit for receiving data from the first coordinate value input device and data from the second coordinate value input device.
